Critical Thinking and Reasoning Ability

Value Added Course- Syllabus

Most of the organizations are facing difficult times due to severe competition in all the industries. Employees need to make correct and fast decisions. For correct decision making, employees must have excellent competency of logical reasoning and critical thinking. Hence TMU has decided introduce this value added course in all the programmes of the university. The duration of this course would be 16-20 hours.

In this course, different concepts of critical reasoning and reasoning ability will be covered. This will help the students to critically analyse the given information and infer the direct and indirect information.

Unit 1:

Statement-Assumptions (2 hours)

Unit 2:

Statement-Arguments (2 hours)

Unit 3:

Statement-Conclusions (2 hours)

Unit 4:

Cause and Effect (2 hours)

Unit 5:
